

Hey there!

Thanks for downloading my free base mesh for ZBrush!

If for some reason you can't open the .ztl file, I've included an obj that you can import.

This basemesh is intended for personal use only, but there's no way I'll ever know if you used it for commercial stuff if you tweak it enough, so feel free to make a donation to my crypto wallets if you want LOL!

Have fun and let me know if there's any problem with it so I can update it on the marketplace! ;)
